

Alignment Healthcare (AHC) specializes in focused and coordinated clinical care specific to the chronically ill and frail population. AHC is dedicated to transforming the complex and often confusing process of medical treatment, so that every link in the care delivery continuum becomes more efficient, productive and focused on improved health outcomes. The company partners with health plans, providers, and hospital systems to offer a seamless, effective and expedient navigation of the health care experience - resulting in healthier, happier and more satisfied patients.

AHC provides its partners with an end-to-end continuous care program - which includes clinical management, care coordination, risk management capabilities and IT enablement. For more information please visit our website:
